Lecture program in TU on role of SEZ

■ NEC Report

Agartala, Sep 21: The hallowed halls of Tripura University's Conference Hall of the Controller of Examination office played host to a stimulating and thought-provoking lecture program, igniting the academic curiosity of attendees. Titled "Do Special Economic Zones Reduce Household Inequality in India?", the event was meticulously organized by the revered Economics Department at Tripura University. The keynote speaker, Professor Saikat Sinha Roy, a luminary in the field of economics hailing from Jadavpur University in West Bengal, captivated the audience with his profound insights into the intricate interplay between Special Economic Zones (SEZs) and household inequality in India. Known for his extensive research in economic development and inequality, Professor Roy's address promised to shed light on a complex subject.

Professor Roy's discourse delved into the multifaceted dynamics of SEZs, emphasizing their instrumental role in bolstering economic growth, fueling employment opportunities, and fostering regional development. With surgical precision, he dissected the potential consequences of SEZ policies on income distribution, underscoring the need for a nuanced understanding of this intricate subject.

The lecture program was graced by a dis-

tinguished panel of academics and scholars from the Economics Department at Tripura University, including Professor Subhrabaran Das, Professor Ashish Nath, Professor Jahar Debbarma, Dr. Salim Sha, and Dr. Dilip Kumar Rana. Their collective expertise enriched the discourse and broadened the scope of discussions. The event witnessed an animated engagement from both scholars and students in attendance, with luminaries like Pintu Majhi and others actively participating in discussions and presenting insightful queries following Professor Saikat Sinha Roy's captivating presentation. The ensuing discussions ventured into the various dimensions of SEZs, dissecting their pivotal role in job creation, probing the potential for income inequality within and surrounding SEZs, and contemplating the overall repercussions of SEZ policies on the Indian economy. This exchange of ideas and perspectives contributed significantly to a comprehensive and intellectually enriching exploration of the topic. This lecture program served as a vibrant platform for intellectual exchange and critical thinking, illuminating the intricate nature of SEZs and their profound implications for household inequality in India. It underscored the paramount importance of rigorous academic inquiry in shaping policies and strategies aimed at fostering inclusive economic development in the country.
