Students Feedback

2023-2024

Tripura University

The students are the pivotal point of a University system. It is for their overall development and academic training that the university works tirelessly, with the teachers directly interacting with the students; the supporting staff, examination section, and the administration facilitating this process by making the overall journey from admission to passing out smooth and effective for the students. For smooth functioning of the entire system, each segment has to be allowed to work with reasonable comfort with an idea about the assessment of their performance at the institution. While student's performance is assessed during examinations, the performance of the teachers and the staff in terms of the perspective of the students, alumni and parents are assessed through their feedback which is collected online each year. It is essential to create a general awareness among the community about the university functioning and attempts to strengthening its teaching learning activity. In this context it is also pertinent to obtain the feedback from the related community (alumni and parents of the students) about the University. In that process, feedback is collected from all stakeholders namely students, alumni, parents, faculty and administrative staff about their perception about the University functioning. To ensure that the teachers and the staff are provided the working environment conducive to effective performance, their feedback about the University is also collected in a similar manner. In order to strength the University system further and ensure satisfaction of all the stakeholders, it is essential to not only obtain their feedback, but to analyze them carefully and ensure adequate measures to reduce the weaknesses and threats while converting the opportunities into strength. The feedbacks received from the students on their overall experience in the University were collated. The responses received from students of different semester were in the following proportion:

They were asked to provide their opinion on the following points pertaining to their overall experience in connection with the University:

- Knowledge level of the teacher (as perceived by you)

- Communication Skills (in terms of articulation and comprehensibility)
- Completion of course in time
- Use of modern teaching methods
- Sincerity/ Commitment of the teacher
- Interest generated by the teacher
- Ability to integrate course material with environment/ other issues, to provide a comprehensive perspective
- Accessibility of the teacher outside the classroom (includes availability of the teacher to motivate further study and discussion outside class)
- Continuous internal evaluation to assess learning outcomes on the basis of quizzes/ tests/ assignments/ examinations and projects etc.
- Attitude of teacher towards the students
- Quality of the teacher that you admire most
- Overall rating

For each point, the responses were collated and the data is provided below graphically
