7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

The Tripura University Act, 2006 states that the university's main objective is to teach and research humanities, natural and physical sciences, social sciences, forestry, and others. Tripura University offers UG programmes through affiliated degree colleges, despite prioritizing in-campus programmes. Tripura University has implemented NEP2020. Tripura University promotes state ethnic, cultural, and linguistic diversity. Only Tripura University offers MA degree in Kokborok literature and language. The thrust of in-house research and teaching courses encompasses regional and national priority domains. Student projects are aligned in that line to ensure trained manpower generation for promoting local businesses and entrepreneurship in the region. We connect the local farmers with the national business community, ensuring the commercialization of local products in the National market. Tripura University created a Bambusetum to showcase the diversity and importance of local bamboo. New skill courses are opened from time to time to enhance employability of the pass out students. After signing an MOU with the National Mission for Manuscripts, Ministry of Culture, Government of India, New Delhi, we established a Manuscript Resource & Conservation Centre. It has collections of Tripura royal manuscripts, rare books, paintings, coins, and Tagore letters and has conducted extensive surveys and documentation, with extensive state-wide communication programmes. Our research has led to the filing of patents and the formation of start-ups. We strive towards the holistic development of the fraternity while caring for the environment and the community, hence growing as partners in excellence.

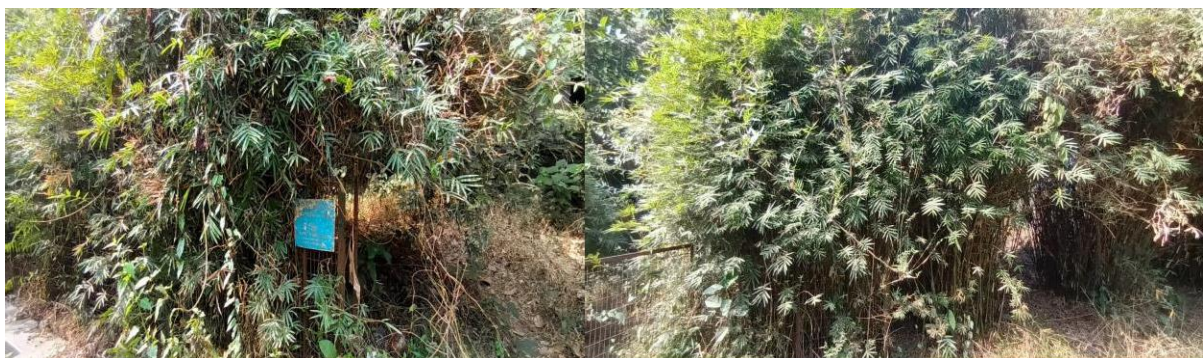

Institutional Distinctiveness
